NEXT MEETING

The July meeting will be held on Tuesday, July 1, 2008. You are welcome to join all who want to eat, ordering off the Hallie Golf menu, at 6:00 P.M. The meeting will follow dinner at 7:00 P.M.

TRAINING

May 28th, 2008 Member and non Members of the CVARC underwent training for damage assement put on by the State of Wisconsin.

This allows those that took the training which was free from the state to be able to go out and do damage assement after tornados, floods and other natural disasters.

Because we have communications and a organization the Local Emergency Government Directors will be able to call upon us if needed.

Field Day June 28 -29

Traditionally the last full weekend in June is ARRL Field Day. This year the event will be on June 28 -- 29, 2008. With over 3,000 entries Field Day is the most participated on air activity in North America. For ARRL affiliated clubs filed Day is a great opportunity to puff out your chest, introduce new people to Amateur Radio and to bring club members together.

Like many other activities in Amateur Radio there are various ways to play the Filed Day game. Some clubs treat Field day like an emergency preparedness drill with a few groups going to the extreme of keeping the operating location secret until the "starting whistle blows." For others Field Day is a contest, attempting to work as many stations as possible and collecting all of the ARRL and RAC sections. Many clubs make Field day a social event that includes lots of food and plenty of radio operating.

Whatever your interpretation of Field Day is, training exercise, radio sport or cookout, the most important thing is to have fun and do it safely.

Complete Field day rules can be found on the web at:
<http://www.arrl.org/contests/rules/2008/fd.html>

DX CORNER

TIMOR-LESTE, 4W. A group of operators will be QRV as 4W6R from June 10 to 24. Activity will be on 160 to 6 meters using CW, SSB and RTTY. QSL via EA4URE.

K9BRM

K9BRM Brian Moris just became a EXTRA and was recognized at the June meeting. Should be noted that he went through all three test in a very

short time.

EDITORS NOTE

Last month I had indicated that I was going to do a series of articles on self supported towers. Well it had come to my attention that there will be a program in a few months just

on this subject so I have decided not to do the series.

So if anyone had a idea on some type series that you like to see please contact the editor.

UP COMING TRAINING

*West Central Wisconsin
ARES/RACES District*

Sponsors/Hosts
